Introduction to Blockchain for Financial Services

Blockchain, Cryptoassets, and Decentralized Finance

Blockchain Transformations of Financial Services

Blockchain in Financial Services: Strategic Action Plan

Aug 26, 2026

Don Tapscott, C.M., BA, BSc, MEd, LLD
Adjunct Professor,
INSEAD

Oğuz Atalay

has successfully completed the online Specialization

Blockchain Revolution in Financial Services

This four-course specialization introduces learners to the world of blockchain technology for financial services—including what blockchain is, how it works, and why it is revolutionary. Students learn about various categories of cryptoassets and the ways they can be transacted on a blockchain. They learn how blockchain is transforming the economy and sociey at large—redefining workflows, global payments, and prosperity. As an outcome of this specialization, students produce a Strategic Action Plan wherein they identify and evaluate a promising application of blockchain technology within the financial services industry.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
